

Check List of Plants at Kadoorie Farm and Botanic Garden

The Check List of Plants at Kadoorie Farm and Botanic Garden, prepared by Ms. Gloria D' Almada Barretto, was published in 2004 includes both indigenous and introduced flora that have grown, or are growing within the Farm.

This list of plants at Kadoorie Farm and Botanic Garden was originally being assembled for those who were interested in acquiring more detail of the plants that were being grown.

The Record has been compiled not only for botanists – local or overseas but also for 'Garden fanatics' and the general visitor – with an interest in nature. Also included are hints and scraps of useful botanical and general garden information that have been 'gleaned' over the years.

The Check List is available now at our Farm Shop, at HK\$ 60 each..
