Introduction

The present publication is a revision of the first edition of the checklist published in 2005. The current checklist covers 10 animal taxon groups and lists species recorded from the Kadoorie Farm & Botanic Garden (KFBG) private nature reserve at Tai Po in the Hong Kong SAR China. There have been additions to the records of species previously recorded in the 2005 publication including further species that are considered rare in Hong Kong. The new edition also contains several taxonomic updates and corrections. The checklist of ants, spiders and freshwater crustaceans are new additions. Meanwhile, we have removed the long list of 1,180 species of moths from the Checklist and provided a separate moth appendix. The moths require a systematic review since the taxonomy of many species is being updated and we will work with local experts to try and keep abreast of future changes.

At the time of revision, the checklist for Fauna species recorded at KFBG included **27 Mammals, 182 Birds, 18 Amphibians, 44 Reptiles, 4 Fish, 3 Freshwater Crustaceans, 174 Butterflies, 162 Rove Beetles, 77 Ants and 21 Spiders**. In future editions we will strive to include further groups particularly among the insects and will encourage local researchers and experts to assist with the inclusion of further species that are resident and protected within the Private Nature Reserve and protected areas at KFBG. All species have been recorded from long-term and short-term tenancy land registered and delineated with KFBG and managed under the conditions set out in the KFBG Ordinance (1995).

For reference and comparison, IUCN Redlist categories and AFCD assessment status is included in tabulated records for certain groups along with KFBG sighting frequency. The legends and abbreviations can be found on the relevant page.

The present publication is intended to be a resource for the public and researchers. Names and taxonomy are frequently being updated for many Fauna groups and we apologise for any errors that may occur due to changes in taxonomy. The Fauna Checklist will be reviewed and updated as frequently as possible and new records for the KFBG Nature Reserve added.

Dr. Gary W.J. Ades
Department Head,
Fauna Conservation Department

Acknowledgments

We want to thank John Allcock for sharing his bird sighting records, John Fellowes and Roger Lee for the new checklist of ants, AFCD staff for adding new bat species and last but not least, all staff, volunteers and visitors who contributed animal sightings that have been incorporated in the checklist.

The legends for the tables are provided below and each table provides the location zone on the hillside where sightings were recorded (Lower, Mid, Upper). Avian fly-overs (particularly for birds of prey) were generally recorded as occurring in the Upper Zone and in some cases the birds may not have occupied habitats on the hillside, however they may have been hunting above the hillside and forest. The map shown on Page 27 indicates where the location zone boundaries are situated.

前言

本名錄是二零零五年嘉道理農場暨植物園動物分類單元名錄初版的修訂版。此名錄收錄了在中國香港特別行政區大埔區嘉道理農場暨植物園私人自然保護區內曾出現的動物物種，共可分為十個分類單元。是次修訂新增了原有分類單元的物種，其中更有部分為本港罕見物種。而且新修訂版亦於分類上有所更新與修正，並加插了蟻、蜘蛛及淡水甲殼類名錄。同時，本編移除紀錄著一千一百八十種飛蛾的長篇名錄，並獨立提供一份飛蛾附錄。由於許多飛蛾的分類有所更新，需要有系統的檢閱，我們將與本地專家合作更新日後有所更改的飛蛾分類。

是次修訂，共記錄了於本園內發現的二十七種哺乳類、一百八十二種鳥類、十八種兩棲類、四十四種爬行類、四種魚類、三種淡水甲殼類、一百七十四種蝴蝶、一百六十二種隱翅蟲、七十七種蟻和二十一種蜘蛛。在未來的版本，我們將致力收編更多分類單元於名錄上，尤其是昆蟲類，並且鼓勵本地研究人員及專家協助記錄居住於本園私人自然保護區及受保護區域的物種。所有物種皆記錄於本園長期用地或經註冊與劃定的短期租賃地，並受本園條例細則規管。

為作參考與比較，本名錄的部分物種除了列出園內的記錄狀況，還列出了世界自然保護聯盟 (IUCN) 瀕危物種紅色名錄的級別及漁農自然護理署內部評估狀況。相關的圖例與縮寫可參考下頁。

本名錄期望為公眾與研究人員提供參考資源。然而，由於許多動物名稱與分類單元更新速度頻密，若未能及時更新相關資訊，還望見諒。我們將盡可能定期檢閱、更新及加插嘉道理農場暨植物園自然保護區內新紀錄物種於名錄中。

艾加里博士

動物保育部主管

特別鳴謝

感謝柯祖毅先生分享其園內觀鳥紀錄、費樂思先生和李灝先生協助新增園內蟻名錄、漁農自然護理署人員協助新增添加蝙蝠物種；最後感謝所有提供動物記錄資訊並合併於此名錄中的本園員工、義工及遊客。

下列為名錄的圖示說明，名錄提供了園內山區野生動物紀錄點 (下、中、上)。飛行動物 (特別猛禽類) 大多記錄於上山區，部分有機會並非棲息於本園保護區內，但見於本園山坡及樹林覓食。名錄第二十七頁地圖標示著本園各山區界限，供大家參考。

Checklist Legends

	IUCN Red List Status ¹ .	世界自然保護聯盟 瀕危物種紅色名錄 ¹
CR	Critically Endangered	極危
EN	Endangered	瀕危

嘉道理農場暨植物園 KADOORIE FARM AND BOTANIC GARDEN

About KFBG

Kadoorie Farm and Botanic Garden (KFBG) is situated in Hong Kong, SAR China, in the rural New Territories, on the northern slopes of Tai Mo Shan, which is Hong Kong's highest mountain. Two steep spurs enclose its deep-set valley. Within KFBG are natural streams, woodlands, orchards, vegetable gardens, walking trails, live animal exhibits, floral exhibits, sustainable agriculture demonstration plots, art exhibits, a wild animal rescue centre, a native tree nursery, and, other conservation and education facilities.

本園簡介

嘉道理農場暨植物園（本園）位處新界鄉郊，座落於香港第一高山大帽山北坡之上，深谷環抱兩旁陡峭的山坡。本園內有清溪、樹林、果園、農圃、遠足徑，並設有動植物展覽、永續農業示範區、藝術展覽、野生動物拯救中心、本土樹木苗圃，以及其他保育及教育設施。
